## Magic Flame™ Heat Shield Glazing Compound

### INTENDED USES:

Designed to protect against heat and flame when soldering. Magic Flame will also protect gold, silver, bronze, copper, and other solid metals from tarnishing caused by heat during soldering.

### USAGE INSTRUCTION:

Mix with denatured alcohol into a liquid paste, and dip item into solution to protect. Apply Magic Flame to burn off alcohol. Product is converted to protective glaze after alcohol is burned off. After soldering is completed, rinse glaze off with warm water. For extra brilliance, place product in a ultrasonic machine with Magic Green; remove and rinse.

**Product solution turns green  
you know it is clean**
